Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management Discussion and Analysis ("MD&A") dated September 4, 2025, comments on our operations, financial performance and financial condition as at and for the three-month periods ended July 31, 2025 and July 31, 2024 and should be read in conjunction with the unaudited condensed interim consolidated financial statements of Tecsys Inc. ("Tecsys", the "Company") and Notes thereto and the annual report for the year ended April 30, 2025. The Company's first quarter of fiscal year 2026 ended on July 31, 2025.

The Company prepares its Financial Statements in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Financial Statements are prepared by and are the responsibility of the Company's Management.

This document and the consolidated financial statements are expressed in Canadian dollars unless otherwise indicated. The functional currency of the Company and its subsidiaries is the Canadian dollar with the exception of its Danish subsidiaries whose functional currency is the Danish kroner.

The Financial Statements were authorized for issue by the Board of Directors on September 4, 2025. Additional information about Tecsys Inc., including copies of the continuous disclosure materials such as the annual information form and the management proxy circular, can be obtained from SEDAR+ at www.sedarplus.ca.

Forward-Looking Information

This management's discussion and analysis contains "forward-looking information" within the meaning of applicable securities legislation. Although the forward-looking information is based on what the Company believes are reasonable assumptions, current expectations, and estimates, investors are cautioned from placing undue reliance on this information since actual results may vary from the forward-looking information. Forward-looking information may be identified by the use of forward-looking terminology such as "believe", "intend", "may", "will", "expect", "estimate", "anticipate", "continue" or similar terms, variations of those terms or the negative of those terms, and the use of the conditional tense as well as similar expressions.

Such forward-looking information that is not historical fact, including statements based on management's belief and assumptions, cannot be considered as guarantees of future performance. They are subject to a number of risks and uncertainties, including but not limited to future economic conditions, the markets that the Company serves, the actions of competitors, major new technological trends, and other factors, many of which are beyond the Company's control, that could cause actual results to differ materially from those that are disclosed in or implied by such forward-looking information. The Company undertakes no obligation to update publicly any forward-looking information whether as a result of new information, future events or otherwise other than as required by applicable legislation. Important risk factors that may affect these expectations include, but are not limited to, the factors described under the section "Risks and Uncertainties" in the Company's annual report for the year ended April 30, 2025.

Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this management discussion and analysis. Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about: (i) competitive environment; (ii) operating risks; (iii) the Company's management and employees; (iv) capital investment by the Company's customers; (v) customer project implementations; (vi) liquidity; (vii) current global financial and geopolitical conditions; (viii) implementation of the Company's commercial strategic plan; (ix) credit; (x) potential product liabilities and other lawsuits to which the Company may be subject; (xi) additional financing and dilution; (xii) market liquidity of the Company's common shares; (xiii) development of new products; (xiv) intellectual property and other proprietary rights; (xv) acquisition and expansion; (xvi) foreign currency; (xvii) interest rates; (xviii) technology and regulatory changes; (xix) internal information technology infrastructure and applications; (xx) cyber security; (xxi) the impact of ongoing international trade tensions; and (xxii) rapid developments in artificial intelligence (AI).

Use of non-IFRS Performance Measures

The Company uses certain non-IFRS financial performance measures in its MD&A and other communications which are described in the "Non-IFRS Performance Measures" section of this MD&A. The non-IFRS measures do not have any standardized meaning prescribed by IFRS and may not be comparable to similarly titled measures reported by other companies. Readers are cautioned that the disclosure of these metrics is meant to add to, and not to replace, the discussion of financial results determined in accordance with IFRS. Management uses both IFRS and non-IFRS measures when planning, monitoring and evaluating the Company's performance.

Overview

Tecsys is a global provider of cloud-based supply chain solutions that enable growth and agility across modern supply chains for competitive advantage. Tecsys caters to multiple complex, regulated and high-volume distribution industries. The Company's solutions include enterprise resource planning, warehouse management, distribution and transportation management, supply management at point of use, order management and fulfillment, financial management and analytics.

Customers running on Tecsys' supply chain platform have confidence they can execute with consistency, regardless of business fluctuations or changes in technology. As their businesses grow more complex, organizations operating on a Tecsys platform can adapt and scale to business needs or size, enabling them to expand and collaborate with customers, suppliers and partners as one borderless enterprise. The platform allows organizations to transform their supply chains for agility and performance at the speed that their growth requires. From demand planning to demand fulfillment, Tecsys puts power into the hands of both front-line workers and back-office planners, enabling business leaders to establish sustainable and scalable logistics so they can focus on the future of their products, services and people, not on their operational challenges.

The Company's customers consist primarily of healthcare and life sciences organizations, both providers and suppliers, in addition to customers requiring a high level of agility and control over their supply chains. These include retailers, third-party logistics providers, industrial and service parts distributors, and other high-volume distribution organizations. It serves a number of marquee brands located in the U.S., Canada, Europe and Australia, and continues to expand its global footprint across its principal markets.

The Company has five principal sources of revenue:

- Software as a service ("SaaS") subscription; the Company generates revenue from proprietary software under a SaaS model. SaaS subscriptions represent the right to access our software platform in a managed environment for a period of time. The Company enters into SaaS subscription agreements that are typically multi-year performance obligations with original contract terms of three to five years with auto-renewal provisions;
- Maintenance and support, which derives largely from the Company's legacy perpetual license installed base. Revenue from maintenance and support also results from selling hardware with attached maintenance which is part of our continuing business model. The Company enters into maintenance and support contracts that typically have an original term of one year and are subject to annual renewal;
- Professional services, including implementation, consulting and training services provided to customers, as well as reimbursable expenses;
- Licenses, including proprietary software as well as third-party software; and
- Hardware, including third-party hardware products and proprietary technology products.

The revenue mix for the three months ended July 31, 2025 and 2024 is as follows:

	Three Months En	nths Ended July 31,		
Revenue Mix %	2025	2024		
SaaS	42%	36%		
Maintenance and support	17%	21%		
Professional services	35%	32%		
License	0%	2%		
Hardware	6%	9%		

Tecsys expects SaaS revenue to continue to grow over time. Revenue from maintenance and support services relate in large part to our prior business model of selling perpetual licenses with attached maintenance and support fees. Revenue from maintenance and support services also results from selling hardware with attached maintenance which is part of our continuing business model. The Company expects maintenance and support services revenue to generally decline over time as new customers acquire SaaS subscriptions and existing customers eventually migrate to SaaS.

Key Performance Indicators ("KPI")

The Company uses certain key performance indicators in its MD&A and other communications which are described in the following section. These key performance indicators do not have any standardized meaning prescribed by IFRS and therefore may not be comparable to similarly titled indicators reported by other companies and cannot be reconciled to a directly comparable IFRS measure. Readers are cautioned that the disclosure of these metrics are meant to add to, and not to replace, the discussion of financial results determined in accordance with IFRS. Management uses IFRS and Non-IFRS measures as well as key performance indicators when planning, monitoring and evaluating the Company's performance.

Recurring Revenue and Backlog

Because SaaS is our primary growth driver and continues to represent a larger share of total revenue, management has refined its key performance indicators to focus on SaaS Annual Recurring Revenue ("SaaS ARR") rather than total ARR. SaaS ARR is defined as the contractually committed purchase of SaaS over the next twelve months. The quantification assumes that customers will renew their contractual commitments as they come up for renewal unless they have cancelled. This portion of revenue is predictable and stable, making SaaS ARR a strong leading indicator of near-term SaaS revenue. It is also a widely used metric to assess future revenue potential. As a result, SaaS ARR has also replaced SaaS bookings as a KPI.

Management uses SaaS Remaining Performance Obligation ("SaaS RPO") as a KPI. Our SaaS subscription agreements typically span three to five years, creating multi-year performance obligations. SaaS RPO reflects contracted revenue expected to be recognized in future periods from obligations that are unsatisfied or partially satisfied at the reporting date. Unlike SaaS ARR, which provides a one-year view, SaaS RPO captures the longer-term revenue visibility of our SaaS contracts.

For Professional Services, management relies on Professional Services Backlog as an indicator of near-term revenue potential. Given the inherent variability in quarterly bookings, and the stronger predictive value of backlog, Professional Services Backlog has replaced Professional Services bookings as the relevant KPI.

(in thousands of CAD)	July 31, 2025	July 31, 2024	Change %
SaaS ARR	\$ 79,314	\$ 65,788	21%
SaaS RPO	226,349	194,874	16%
Professional Services Backlog	43,694	35,513	23%

Momentum from cumulative SaaS bookings and renewals continues to translate into growth in SaaS ARR and SaaS RPO. Professional Services Backlog rose sharply compared to last year, reflecting robust demand and a significant pickup in bookings in the second half of fiscal 2025.

Results of Operations

The following table presents a summary of the results of operations:

Non-IFRS Performance Measures

The terms and definitions of the non-IFRS measures used in this MD&A are provided below. These non-IFRS measures do not have any standardized meanings prescribed by IFRS and may not be comparable to similar measures presented by other companies. Accordingly, they should not be considered in isolation.

EBITDA and Adjusted EBITDA

EBITDA is calculated as earnings before interest expense, interest income, income taxes, depreciation and amortization. Adjusted EBITDA is calculated as EBITDA before stock-based compensation and restructuring costs. The exclusion of interest expense, interest income, income taxes and restructuring costs eliminates the impact on earnings derived from non-operational activities and non-recurring items, and the exclusion of depreciation, amortization and stock-based compensation eliminates the non-cash impact of these items.

The Company believes that these measures are useful measures of financial performance without the variation caused by the impacts of the items described above and that could potentially distort the analysis of trends in our operating performance. In addition, they are commonly used by investors and analysts to measure a company's performance, its ability to service debt and to meet other payment obligations, or as a common valuation measurement. Excluding these items does not imply that they are necessarily non-recurring. Management believes these non-IFRS financial measures, in addition to conventional measures prepared in accordance with IFRS, enable investors to evaluate the Company's operating results, underlying performance and future prospects in a manner similar to management. Although EBITDA and Adjusted EBITDA are frequently used by securities analysts, lenders and others in their evaluation of companies, they have limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of the Company's results as reported under IFRS.

¹ Refer to section "Non-IFRS Performance Measures" for definition.

The reconciliation of EBITDA and Adjusted EBITDA to the most directly comparable IFRS measure is provided below.

Constant currency

Financial results at constant currency allow results to be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons in the analysis of trends in business performance. Financial results at constant currency are obtained by translating prior period results denominated in U.S. dollars and Danish kroner at the foreign exchange rates of the current period. Current period foreign exchange rates used in the constant currency translation include the impact of designated U.S. dollar revenue hedges.

Revenue

	Three Months Ended July 31,								
(in thousands of CAD)	2025		2024	Change %					
SaaS	\$ 19,139	\$	15,314	25%					
Maintenance and support	7,857		8,715	-10%					
Professional services	16,039		13,387	20%					
License	89		861	-90%					
Hardware	2,836		3,999	-29%					
Total Revenue	\$ 45,960	\$	42,276	9%					

Total revenue for the three months ended July 31, 2025, was \$46.0 million, an increase of \$3.7 million, compared to the same period last year.

On a constant currency basis, first quarter total revenue grew by approximately 8%, compared to the same period of Fiscal 2025. Total revenue excluding hardware increased by 13% year-over-year, and 12% on a constant currency basis.

In Q1 Fiscal 2026, 72% of the Company's revenues were generated in U.S. dollars (71% in Q1 Fiscal 2025). The U.S. dollar averaged CA\$1.3743 compared to CA\$1.3695 last year. The stronger U.S. dollar, combined with partial hedging of U.S revenue, resulted in a net favorable foreign currency related revenue variance of \$0.1 million compared to Q1 Fiscal 2025.

SaaS revenue

SaaS revenue in the first quarter of Fiscal 2026 was \$19.1 million, up \$3.8 million compared to the first quarter of Fiscal 2025. The increase is driven by new SaaS revenue from recent bookings.

² Refer to section "Non-IFRS Performance Measures" for definition.

On a constant currency basis, SaaS revenue in the first quarter of Fiscal 2026 increased by approximately 24% compared to the same period in Fiscal 2025.

Maintenance and support revenue

Maintenance and support revenue for the three months ended July 31, 2025 were \$7.9 million, down \$0.9 million, compared to the same period of Fiscal 2025. The Company expects maintenance and support revenue to generally decline over time as new customers acquire SaaS subscriptions and existing customers eventually migrate to SaaS.

Professional services revenue

Professional services revenue for the three months ended July 31, 2025 was \$16.0 million, up \$2.7 million, compared to the same period of Fiscal 2025. Professional services revenue growth was underpinned by a robust backlog entering the quarter and reinforced by ongoing momentum in implementation demand.

License revenue

In the three months ended July 31, 2025, license revenue was \$0.1 million, down \$0.8 million, compared to the same period of Fiscal 2025. The decline was due primarily to lower third party license revenue.

Hardware revenue

Hardware revenue for the three months ended July 31, 2025, was \$2.8 million, down \$1.2 million compared to the same period last year. While hardware revenue can tend to be uneven, it is a key component of our market offering and thereby supports our recurring revenue business.

Cost of Revenue and Gross Profit

	Three Months Ended July 31,					
(in thousands of CAD)	2025		2024	Change %		
Cost of revenue:						
SaaS, maintenance, support and professional services	\$ 20,182	\$	18,991	6%		
License and hardware	2,210		3,557	-38%		
Total cost of revenue	22,392		22,548	-1%		
Gross profit & gross profit margin:						
SaaS, maintenance, support and professional services gross profit	\$ 22,853	\$	18,425	24%		
Gross profit margin	53%		49%			
License and hardware gross profit	\$ 715	\$	1,303	-45%		
Gross profit margin	24%		27%			
Total gross profit	\$ 23,568	\$	19,728	19%		
Total gross profit margin	51%		47%			

Total cost of revenue for the first quarter of Fiscal 2026 was \$22.4 million, a decrease of \$0.2 million, compared to the same period in Fiscal 2025. The decrease is driven by lower license and hardware costs associated with lower revenue, partly offset by higher SaaS, maintenance, support and professional services costs. The increase in SaaS, maintenance, support and professional services costs was driven by increased direct costs from revenue growth, including higher employee costs and public cloud infrastructure costs.

For the first quarter of Fiscal 2026, the cost of SaaS, maintenance, support and professional services included tax credits of \$0.5 million, compared to \$0.6 million, for the same period in Fiscal 2025.

Gross profit was \$23.6 million, up \$3.8 million in the first quarter of Fiscal 2026 compared to the same period in Fiscal 2025. The increase in gross profit was driven by higher SaaS, maintenance, support and professional services gross profit contribution, which was partly offset by lower gross profit contribution from license and hardware.

As a percentage of revenue, total gross profit margin for the three months ended July 31, 2025 was 51% compared to 47% for the same period in Fiscal 2025. The increased gross profit margin in Q1 Fiscal 2026 was due to higher SaaS and professional services margins.

License and Hardware gross profit margin for the three months ended July 31, 2025 was 24% compared to 27% for the same period in Fiscal 2025. The decline in license and hardware gross profit margin was driven by a greater proportion of lower-margin hardware revenue.

Operating Expenses

	Three Months E	nded July 31,	
(in thousands of CAD)	2025	2024	Change %
Sales and marketing expenses	\$ 10,316 \$	8,352	24%
As a percentage of Total Revenue	22%	20%	
General and administration expenses	3,385	2,978	14%
As a percentage of Total Revenue	7%	7%	
Research and development expenses, net of tax credits	8,504	7,331	16%
As a percentage of Total Revenue	19%	17%	
Total operating expenses	\$ 22,205 \$	18,661	19%
As a percentage of Total Revenue	48%	44%	

Total operating expenses for the three months ended July 31, 2025 were \$22.2 million, an increase of \$3.5 million, compared to the same period in Fiscal 2025. During the three months ended July 31, 2025, foreign exchange did not have a significant impact on expenses.

Sales and marketing expenses

Sales and marketing expenses for the three months ended July 31, 2025 were \$10.3 million, an increase of \$2.0 million when compared to the same period last year. The increase was primarily driven by user conference costs, higher personnel costs, and higher amortization of intangible assets (acquired customer contracts, refer to note 3 of the condensed interim consolidated financial statements).

General and administrative expenses

General and administrative expenses for the first quarter of Fiscal 2026, were \$3.4 million, an increase of \$0.4 million when compared to the same period in Fiscal 2025. The increase is mainly attributed to higher personnel costs, bad debt expense (recovery in prior year quarter) and stock-based compensation.

Net R&D expenses

Net R&D expenses for the three months ended July 31, 2025, were \$8.5 million, an increase of \$1.2 million from the same period in Fiscal 2025. The increase resulted primarily from higher personnel costs and other R&D costs.

For the three months ended July 31, 2025 and 2024, the Company deferred development costs of \$0.5 million. The Company amortized deferred development costs of \$0.3 million in the first quarter of Fiscal 2026 compared to \$0.2 million in the same period of Fiscal 2025.

The Company recorded R&D tax credits and e-business tax credits of \$0.9 million for the first quarter of Fiscal 2026 compared to \$0.8 million in the same period of Fiscal 2025.

Other Income and Income Tax Expense

	Tł	ree Months	Ende	ded July 31,

Other income	\$	24	\$	167		
Income Tax Expense		625		436		
Income Tax Expense as a percentage of profit before income taxes		45%		35%		

Other costs and income for the three months ended July 31, 2025 consisted primarily of interest income on short-term investments and foreign exchange loss.

Income tax expense for the three months ended July 31, 2025 increased by \$0.2 million compared to the same period last year.

Net Profit

	Th	ree Months	Ende	ed July 31,

Adjusted EBITDA ³	\$	3,214	\$	2,591	24%
Basic and diluted earnings per share	\$	0.05	\$	0.05	

Adjusted EBITDA in the quarter benefited from higher contributions from SaaS and professional services, partially offset by increased operating expenses. Net profit and earnings per share were affected by higher amortization of acquired intangible assets, stock-based compensation expense, and income tax expense. In Q1 Fiscal 2026, foreign exchange had a favorable impact of \$0.1 million on net profit, Adjusted EBITDA, and earnings per share compared to the same period last year.

SaaS revenue has shown sustained growth over the last eight quarters. Total revenue growth during this period has been moderated by fluctuations in professional services revenue, hardware revenue as well as legacy maintenance & support revenue. Comprehensive income (loss) is impacted by foreign exchange movements resulting from revenue hedging.

Liquidity and Capital Resources

(in thousands of CAD)	July 31, 2025	April 30, 2025
Current assets	\$ 78,522	\$ 89,904
Current liabilities	60,280	67,982

On July 31, 2025, current assets totaled \$78.5 million, down \$11.4 million, compared to \$89.9 million at the end of Fiscal 2025. The decrease is mainly due to cash and cash equivalents and accounts receivable.

Current liabilities on July 31, 2025, totaled \$60.3 million, down \$7.7 million, compared to \$68.0 million at the end of Fiscal 2025. The decrease is mainly due to deferred revenue and accounts payable and accrued liabilities.

(in thousands of CAD)	July 31, 2025	April 30, 2025
Cash and cash equivalents	\$ 19,178	\$ 27,580
Short-term investments	11,811	11,712
	\$ 30,989	\$ 39,292

Cash and cash equivalents combined with short-term investments decreased by \$8.3 million to \$31.0 million compared to \$39.3 million at the end of Fiscal 2025. The decrease is mainly due to (1) changes in non-cash working capital items, which typically use up cash in the first quarter of the fiscal year, (2) acquisition of intangible assets, (3) cash outflows from share repurchases under our Normal Course Issuer Bid, and (4) capital expenditures.

Cash inflow (outflow) by activity (in thousands of CAD)	July 31, 2025	July 31, 2024
Operating Activities	\$ (4,657)	\$ (5,905)
Financing Activities	(706)	(2,157)
Investing Activities	(3,039)	(89)
Net cash outflows	\$ (8,402)	\$ (8,151)

Operating Activities

Operating activities used \$4.7 million of cash in the first quarter of Fiscal 2026 in comparison to \$5.9 million used in the first quarter of Fiscal 2025. The use of cash in operating activities in both periods was primarily driven by seasonal fluctuations in non-cash working capital.

Financing Activities

Cash used in financing activities was \$0.7 million for the first quarter of Fiscal 2026 in comparison to \$2.2 million in the first quarter of Fiscal 2025. In the first quarter of Fiscal 2026, cash flow used in financing activities was primarily the result of shares repurchased and cancelled under our Normal Course Issuer Bid, partially offset by proceeds from the issuance of common shares on the exercise of stock options.

Investing Activities

In the first quarter of Fiscal 2026, investing activities used funds of \$3.0 million compared to \$0.1 million of cash used in the first quarter of Fiscal 2025. The increase in cash used in investing activities in the first quarter of Fiscal 2026 is primarily due to the acquisition of intangible assets, lower transfers from short-term investments and higher acquisitions of property and equipment.

The Company believes that funds on hand at July 31, 2025 together with cash flows from operations will be sufficient to meet its needs for working capital, R&D, capital expenditures and dividend policy, as well as to invest in long-term growth.

Related Party Transactions

Under the provisions of the share purchase plan for key management and other management employees, the Company provided interest-free loans to key management and other management employees of \$0.7 million during the three months ended July 31, 2025 (\$0.5 million for the same period last year) to facilitate their purchase of the Company's common shares. As of July 31, 2025, loans outstanding amounted to \$0.6 million (April 30, 2025 - \$35 thousand).

Subsequent Events

On August 1, 2025, the Company paid a dividend of \$0.085 per share totaling \$1.3 million. On September 4, 2025, the Company's Board of Directors declared a quarterly dividend of \$0.085 per share to be paid on October 3, 2025 to shareholders of record on September 19, 2025.

Current and Anticipated Impacts of Current Economic Conditions

Current overall economic conditions together with market uncertainty and volatility may have an adverse impact on the demand for the Company's products and services as the industry may adjust quickly to exercise caution on capital spending. This uncertainty may impact the Company's revenue.

Based on ARR of \$107.8 million and Professional services backlog of \$43.7 million as of July 31, 2025, the Company's management believes that total services revenue (including SaaS, maintenance and support and professional services revenue) ranging between \$42.5 million and \$43.5 million per guarter can be sustained in the short term.

Strategically, the Company continues to focus its efforts on the most likely opportunities within its existing vertical markets and customer base. The Company also currently offers SaaS subscriptions, modular sales and

implementations and enhanced payment terms to promote revenue growth. We see continued market appetite for subscription-based SaaS licensing.

The exchange rate of the U.S. dollar in comparison to the Canadian dollar continues to be an important factor affecting revenues and profitability as the Company currently derives more than 70% of its business from U.S. customers while the majority of its cost base is in Canadian dollars.

The Company will continue to adjust its business model to ensure that costs are aligned to its revenue expectations and economic reality to the extent possible.

Outstanding Share Data

As at July 31, 2025, the Company had 14,827,435 common shares outstanding. The Company issued 12,615 shares on the exercise of stock options in the first quarter of Fiscal 2026 (Fiscal 2025 – 12,537). The Company repurchased and cancelled 21,300 of its common shares as part of its ongoing normal course issuer bid in the first quarter of Fiscal 2026 (Fiscal 2025 – 59,600).

Critical Accounting Policies and Critical Accounting Judgements and Key Sources of Estimation Uncertainty

The Company's critical accounting policies are those that it believes are the most important in determining its financial condition and results.

The preparation of the consolidated financial statements in accordance with IFRS requires management to make estimates, assumptions, and judgments that affect the application of accounting policies and the reported amounts of assets and liabilities, and revenue and expenses. Reported amounts and note disclosures reflect the overall economic conditions that are most likely to occur and the anticipated measures that management intends to take. Actual results may differ from these estimates.

Reported amounts and note disclosures reflect the overall economic conditions that are most likely to occur and the anticipated measures that management intends to take. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

There have been no significant changes in the key sources of estimation uncertainty and judgements made in relation to the accounting policies applied to those disclosed in the Company's annual consolidated financial statements for the year ended April 30, 2025.

Controls & Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that material information is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure. The Company's Chief Executive Officer (CEO) and its Chief Financial Officer (CFO) are responsible for establishing and maintaining disclosure controls and procedures regarding the communication of information. They are assisted in this responsibility by the Company's Executive Committee, which is composed of members of senior management. Based on the evaluation of the Company's disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures were effective as of July 31, 2025.

Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting ("ICFR") to provide reasonable assurance regarding the reliability of the Company's financial reporting and its compliance with IFRS in its Financial Statements. The control framework that was designed by the Company's ICFR is in accordance with the framework criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013) (COSO).

No changes to internal controls over financial reporting have come to management's attention during the three-month period ending on July 31, 2025, that have materially affected or are reasonably likely to materially affect internal controls over financial reporting.

1. Description of business:

Tecsys Inc. (the "Company") was incorporated under the Canada Business Corporations Act in 1983. The Company's principal business activity is the development, marketing and sale of enterprise-wide supply chain management software for distribution, warehousing, transportation logistics, point-of-use and order management. The Company sells its software primarily on a subscription basis as Software as a Service. The Company also provides related consulting, training and support services. The Company is headquartered at 1, Place Alexis Nihon, Montréal, Canada, and derives substantially all of its revenue from customers located in the United States, Canada and Europe. The Company's customers consist primarily of healthcare and life sciences organizations, both providers and suppliers, in addition to customers requiring a high level of agility and control over their supply chains. These include retailers, third-party logistics providers, industrial and service parts distributors, and other high-volume distribution organizations. The consolidated financial statements comprise the Company and its wholly-owned subsidiaries. The Company is a publicly listed entity and its shares are traded on the Toronto Stock Exchange under the symbol TCS.

2. Basis of preparation:

(a) Statement of compliance:

The Company's unaudited condensed interim consolidated financial statements and the notes thereto have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). They do not include all the information required in the full annual financial statements. Certain information and footnote disclosures normally included in annual financial statements were omitted or condensed where such information is not considered material to the understanding of the Company's interim financial information. As such, they should be read in conjunction with the consolidated financial statements of the Company as at and for the year ended April 30, 2025 ("Fiscal 2025").

The unaudited condensed interim consolidated financial statements were authorized for issue by the Board of Directors on September 4, 2025.

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited annual consolidated financial statements as at April 30, 2025.

(b) Functional and presentation currency:

The unaudited condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company. All financial information presented in Canadian dollars has been rounded to the nearest thousand (\$000) except when otherwise indicated.

(c) New standards and interpretations not yet adopted by the Company

Refer to the Company's audited annual consolidated financial statements for Fiscal 2025 for a discussion of new amendments not yet adopted.

3. Acquisition of intangible assets:

On May 1, 2025, the Company announced the establishment of a new subsidiary in India as part of an asset acquisition that included the hiring of an India-based team. The \$2,700 acquisition is comprised of intangible assets and was paid for with cash of \$1,975 and assumption of liabilities (primarily deferred revenue) of \$725.

6. Share capital and Stock option plan:

(a) Dividend policy:

The Company maintains a quarterly dividend policy. The declaration and payment of dividends is at the discretion of the Board of Directors, which will consider earnings, capital requirements, financial conditions and other such factors as the Board of Directors, in its sole discretion, deems relevant.

On June 26, 2025, the Company's Board of Directors declared a quarterly dividend of \$0.085 per share, paid on August 1, 2025 to shareholders of record on July 11, 2025.

(b) Earnings per share:

The calculation of basic earnings per share is based on the profit attributable to common shareholders and the weighted average number of common shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to common shareholders and the weighted average number of common shares outstanding after adjustment for the effects of all dilutive common shares.

Basic and diluted earnings per share are calculated as follows:

	Three Months Ended July 31,				
	2025		2024		
Net profit, attributable to common shareholders	\$ 762	\$	798		
Weighted average number of basic common shares	14,834,415		14,806,123		
Dilutive impact of stock options	120,005		82,515		
Weighted average number of diluted common shares	14,954,420		14,888,638		
Basic and diluted earnings per common share	\$ 0.05	\$	0.05		

As at July 31, 2025, 391,082 options were excluded from the calculation of weighted average number of diluted common shares as their effect would have been anti-dilutive (505,396 options as at July 31, 2024).

(c) Stock option plan:

The Company has a stock option plan under which stock options may be granted to certain employees and directors. Under the terms of the plan, the Company may grant options up to 10% of its issued and outstanding shares. The stock option plan is administered by the Board of Directors who may determine, in accordance with the terms of the plan, the terms relating to each option, including the extent to which each option is exercisable during the term of the options.

The exercise price is generally determined based on the weighted average trading price of the Company's common shares for the 5 days prior to the date the Board of Directors grants the option.

6. Share capital and Stock option plan (continued):

(c) Stock option plan (continued):

The fair value of options granted on June 26, 2025 and June 27, 2024 were determined using the Black-Scholes option pricing model with the following assumptions:

	Fiscal 2026 June 26, 2025	Fiscal 2025 June 27, 2024
Exercise share price	\$ 40.47	\$ 33.23
Expected option life (years)	5	5
Weighted average expected stock price volatility	43.26%	42.10%
Weighted average dividend yield	0.82%	0.93%
Weighted average risk-free interest rate	2.90%	3.40%

For the three months ended July 31, 2025, the Company recognized stock-based compensation expense of \$784 (\$647 for the same period of Fiscal 2025). The contributed surplus accounts are used to record the accumulated compensation expense related to equity-settled share-based compensation transactions. Upon exercise of stock options, the corresponding amounts previously credited to contributed surplus are transferred to share capital.

(d) Share capital:

On September 12, 2023, the Company announced its Notice of Intention to make a normal course issuer bid ("NCIB") with the Toronto Stock Exchange ("TSX"). The NCIB covered the twelve-month period commencing September 14, 2023 and ending September 13, 2024. Purchases under the NCIB were made at the prevailing market price at the time of acquisition, plus brokerage fees, through the facilities of the TSX and/or alternative Canadian trading systems, in accordance with the TSX's applicable policies. All common shares purchased under the NCIB were cancelled.

On September 18, 2024, the Company announced that the TSX approved the renewal of the Company's NCIB. Pursuant to the NCIB, during the twelve-month period commencing September 20, 2024 and ending September 19, 2025, the Company intends to purchase up to 500,000 common shares, which represents 3.4% of its 14,788,706 issued and outstanding common shares as of September 16, 2024. Under the NCIB, other than purchases made under block purchase exemptions, the Company may purchase up to 2,117 common shares during any trading day, which represents 25% of 8,469, being the average daily trading volume for the six months ended August 31, 2024. These purchases will be made at the prevailing market price at the time of acquisition, plus brokerage fees, through the facilities of the TSX and/or alternative Canadian trading systems, in accordance with the TSX's applicable policies. All common shares purchased under the NCIB will be cancelled.

During the three-month period ended July 31, 2025 the Company purchased 21,300 (59,600 for the same period in Fiscal 2025) of its outstanding common shares for cancellation at an average price of \$38.86 per share (\$37.10 for the same period in Fiscal 2025). The total cost related to purchasing these shares, including other related costs, was \$828 (\$2,211 for the same period in Fiscal 2025). 10. Derivative instruments and risk management:

The Company is exposed to currency risk as a significant portion of the Company's revenues and expenses are incurred in U.S. dollars resulting in U.S. dollar-denominated accounts receivable and accounts payable and accrued liabilities. In addition, certain of the Company's cash and cash equivalents are denominated in U.S. dollars. These balances are therefore subject to gains or losses due to fluctuations in that currency.

The Company may enter into foreign exchange contracts in order to (a) offset the impact of the fluctuation of the U.S. dollar on its U.S. net monetary assets and (b) hedge highly probable future revenue denominated in U.S. dollars. The Company uses derivative financial instruments only for risk management purposes, not for generating trading profits. As such, any change in cash flows associated with derivative instruments is expected to be offset by changes in cash flows related to the net monetary position in the foreign currency and the recognition of highly probable future U.S. denominated revenue and related accounts receivable.

Non-hedge designated derivative instruments

The following table presents the Company's outstanding non-hedge designated derivative instruments as of July 31, 2025:

	Number of contracts	To sell	Contracts average exchange rate	Unrealized gain presented in assets	Unrealized loss presented in liabilities
